### **ID Agent Recognized on 2017 Emerging Vendors List by CRN**

*ID Agent Emerging as Leader in Dark Web Monitoring and Identity Theft Protection Market*

WASHINGTON, D.C. – July 24, 2017 – [ID Agent](#), provider of Dark Web monitoring and identity theft protection solutions, announced that [CRN®](#), a brand of [The Channel Company](#), has named the company to its [2017 Emerging Vendors](#) list in the Security category. The list recognizes recently founded, up-and-coming technology suppliers that are shaping the future of the IT channel through unique technological innovations. In addition to celebrating these standout companies, the Emerging Vendors list serves as a valuable resource for solution providers looking to expand their portfolios with cutting-edge technology. This year, for the first time, the list is divided into seven categories: Cloud, Data Center, Security, Big Data, Networking/VoIP, Internet of Things and Storage.

“This impressive group of technology supplier startups is already disrupting the status quo, aggressively creating and innovating to meet the ever-changing demands of the IT market,” said [Robert Faletra](#), CEO of The Channel Company. “CRN’s 2017 Emerging Vendors represent the next generation of IT change agents, producing a wide range of leading-edge products that solution providers should keep an eye on in the coming year and beyond.”

CRN researched multiple companies to gain an understanding of the offerings provided by each. Observations for ID Agent’s unique offering was the ease of staying in communication with the company throughout the buying process, its support for implementing its platform, an empowerment kit available to partners to help sell to third parties and its swift and useful sales support team.

“ID Agent is emerging as a leader in the Dark Web monitoring and identity theft protection market,” said [Kevin Lancaster](#), CEO of ID Agent. “We are happy that CRN has validated our position by listing us on the 2017 Emerging Vendors list.”
